| Question:2 | CLO -2 | PLO -7 | Marks 10 |
|------------|--------|--------|----------|

Cyberbullying is a growing problem in the digital age that affects people, especially teenagers, through online platforms. It involves using technology to harass, threaten, or humiliate others.

**Task:** Before writing, brainstorm the key aspects of this issue, considering its causes, effects on mental health, impact on society, and possible ways to prevent it. Then, write a well-structured paragraph (120–150 words) explaining cyberbullying. Ensure your paragraph includes a clear topic sentence, a controlling idea, supporting details, and a logical conclusion.

|------------|--------|--------|----------|

**Scenario:** You are the Secretary of the Tech Club at your university. Your institution recently organized the Annual Tech and Innovation Fair to showcase student projects, innovations, and technological demonstrations. The event included project exhibitions, interactive demos, and competitions for best innovation and design. The Principal has asked you to prepare a report for the college magazine.

**Task:** Write a report (150–200 words) on the Annual Tech and Innovation Fair, including the title, introduction, details of the event, results, suggestions, and conclusion.

| Question:5 | CLO -4 | PLO -7 | Marks 10 |
|------------|--------|--------|----------|

**Scenario:** You recently purchased a HomeGuard X5 Wi-Fi Security Router for your home network. The following is a short extract from its instruction manual. Write up a brief (two-to-three paragraph) description of your analysis describing how the language, tone, and organization help navigate the manual. Furthermore, propose one suggestion to enhance the user's understanding.

| Extract from the Wi-Fi Security Router Instruction Manual                         |                       |                           |
|---|-----------------------|---------------------------|
| <b>Model:</b> HomeGuard X5  |                       |                           |
| <b>Brand:</b> CyberLink   |                       |                           |
| <b>Operating Instructions:</b>  |                       |                           |
| 1. Connect the router to a power source and your internet modem.                  |                       |                           |
| 2. Download the <i>CyberLink Secure</i> app on your smartphone.                   |                       |                           |
| 3. Create a user account and log in.  |                       |                           |
| 4. Set a strong administrator password.   |                       |                           |
| 5. Connect your devices using the provided network name (SSID).                   |                       |                           |
| 6. Enable "Firewall Protection" and "Auto Security Updates" in the settings menu. |                       |                           |
| <b>Safety Warnings:</b>   |                       |                           |
| • Do not share your Wi-Fi password with untrusted users.                          |                       |                           |
| • Change default passwords immediately after setup.                               |                       |                           |
| • Regularly update firmware to protect against new threats.                       |                       |                           |
| <b>Troubleshooting:</b>   |                       |                           |
| <b>Problem</b>  | <b>Possible Cause</b> | <b>Solution</b>           |
| Cannot connect to Wi-Fi   | Weak signal           | Move closer to the router |
| Device not appearing on network   | Firewall enabled      | Adjust security settings  |

**BEST OF LUCK!**
